 **KINGS SEEDS**

The people that know about seeds

Welcome to our early starter spring catalogue for 2024

Your main ingredient to make your garden grow starts with a good, reliable seed and plant supplier. We feel sure that once you have used our quality seeds and plants you will never look back, as our catalogue is the one stop shop, as far as you are concerned, backed up by our quality service and advice.

All our seeds and plants are carefully selected for you by our Horticultural Director Andrew Tokely. Our qualified seed analyst tests all seed for germination, vigor and purity to meet the legal standards in our well-equipped laboratory.

We look forward to receiving your orders in due course, and please feel free to contact our experienced staff, to discuss any requirements or queries you may have. May I take this opportunity to wish you a very happy, healthy and successful season.

Typical sizes of some of our quality plug plants

Growing from plugs takes away a lot of the worry that some gardeners have when raising plants from seed. With our staggered deliveries, you can order with confidence that they will arrive at the perfect time for planting. Specially selected so that they are easy to grow for both beginners and the more experienced gardeners. The polythene wrap we have around our catalogue is 100% recyclable. It's also quicker to degrade than standard poly and has 95% less waste material. Plug plant packaging is also recyclable and made from recycled plastic.

- Stagger your deliveries to suit you for up to three months at no extra cost
- Larger 9cm pots for many varieties including tomatoes, sweet potatoes, cucumbers, courgettes, peppers and aubergines
- One plant per plug unless indicated
- Varieties specifically chosen for outstanding garden performance
- Easy to grow

Order as many plug plants as you require with staggered deliveries and you only incur a one off delivery price of just £5.95

Peach Avalon Pride® NEW

A chance seedling from British Columbia, Avalon Pride® is still the most peach leaf curl resistant variety on the garden market.

Compact growing and self-fertile, this yellow flesh peach is the easiest variety to grow, giving large juicy and very sweet peaches during August. Pick these fruits in the late afternoon after the days sun has warmed them for a truly wonderful eating experience. Rootstock Myrobalan.

Pear Concorde NEW

It is hardly surprising that a pear bred by crossing Conference and Doyenne du Comice should have superb flavour and crop so heavily.

Making quite a compact and upright tree, Concorde has become a real favourite with the UK gardener and commercial grower alike. Concorde will set a crop of very large bell-shaped fruits on its own, so if you only have the room for one pear, then chose Concorde. Rootstock Quince Adams

Plum Victoria 🍷

The finest plum in the world dating back more than 150 years and is still the best selling fruit tree year after year. Regular crops of magnificent light violet coloured fruits are ready to pick in late August and early September. Victoria needs no pollinator. Its weeping growth habit makes it suitable for all sizes of gardens. For jam, pies or eaten fresh, ripe Victoria Plums are magnificent. No garden is complete without one. Rootstock St Julien.

Greengage

Oullin's Golden Gage

Hardly ever seen in the shops nowadays, greengages are among the best flavoured fruits in the world.

Although remaining green for most of the season the fruits ripens to a magnificent golden yellow and become wonderfully sweet and juicy. Greengages require pollination and Victoria will do that job marvellously. Planted together they make the ideal mini stone fruit orchard. Rootstock St Julien.
