

Top 10 Garlic Growing Tips

- Keep Watered
- Keep Weeded
- Keep top 5cm/ 2" soil loose and aerated around plants
- Don't plant supermarket garlic. Its been in cold store and will rarely perform.
- Choose seed garlic from a proven source.
- Fertilise, including sulphur
- When its time to harvest, lift. Don't delay!
 - Dry carefully
- Try plaiting and grapping (tying into bunches). Hang in the kitchen as this is the best place to store.
- Grow at least two types, an early (to eat immediately and a late (longest keeping).
